

Q1 2015 Quarterly Report for Spar Nord Bank A/S

High activity in the housing and asset area and the sale of shares in Nørresundby Bank generated a pre-tax profit of DKK 533 million and an annualized 29.4% return on equity – forecasts for full-year core earnings before impairment adjusted upwards by DKK 100 million

- Core income for Q1 amounted to DKK 1,140 million, equal to a 26% rise on Q1 2014. Adjusted for the impact of the sale of the Nørresundby Bank shareholding and of Nets shares, last year growth reached 25%.
- Net interest income rose 9% on the same period last year, but was 5% down on the previous quarter – the decline is due to fewer interest days and continued pressure on the lending volume.
- The highly positive growth in fees continued, with a 52% rise compared with the same period of 2014 – particularly the housing area experienced an extremely high activity level.
- Market-value adjustments and dividends amounted to as much as DKK 359 million due to the sale of shares in Nørresundby Bank – the underlying growth was also satisfactory.
- Total core earnings before impairment in Q1 amounted to DKK 656 million, 45% up on the same period of 2014, and adjusted for the impact of the sale of the Nørresundby Bank shareholding and last year's sale of shares in Nets, this represents a 60% growth.
- Loan losses amounted to DKK 98 million, equal to an impairment ratio of 0.84% p.a. – loan losses are declining markedly in all areas except for agriculture.
- The Group's total business volume grew by 3% on end-2014, for the first time exceeding DKK 200 billion – growth was driven by a high activity level in the assets, savings and mortgage credit areas, while the lending volume dropped by 2%.
- The forecast for full-year core earnings before impairment has been adjusted upwards from about DKK 1.4 billion to DKK 1.5 billion.

Lasse Nyby, Chief Executive Officer, has the following comments on the financial statements:

- It is hard not to be satisfied with a quarterly performance that is the best in the Bank's history, both in monetary terms and when it comes to return on equity. Several positive factors have contributed to this excellent performance – particularly the extraordinary income generated by the sale of our shareholding in Nørresundby Bank. But our ordinary activities have also developed strongly in several areas in the first few months of the year.
- The low interest level and the ensuing remortgaging surge, coupled with a generally busier activity level in the property market, have rendered our earnings in the housing area very strong. The low interest rates have also meant a continued intake of customers and capital into actively managed savings products, which has pushed earnings further upwards. Finally, a spring mood seems to have arrived on share markets, particularly the Danish market, where our primary activities are concentrated.

**) Spar Nord's impairment account amounts to DKK 1,868 million (end-2014: DKK 1,856 million) (note 12), and the discount on commitments taken over amounts to DKK 265 million (end-2014: DKK 293 million).

The definition and breakdown of contributions to sector-wide solutions and special merger-related items, etc., which have been recognized separately, appear from note 3.

In early October 2014, the Spar Nord Group resumed its own leasing activities, for which reason the presentation of leasing activities has been changed, now being recognized as continuing instead of discontinuing activities.

As from 1 January 2015, earnings from investment portfolios are presented as part of the Bank's core earnings, in that the remaining portfolio of securities - previously presented separately - has been reduced substantially.

The Spar Nord Group's pre-tax profits came to DKK 533 million in Q1 2015 versus DKK 349 million in Q1 2014 and DKK -56 million in Q4 2014. This performance corresponds to an annualized 29.4% return on equity before tax.

Adjusted for the impact of the sale of the shareholding in Nørresundby Bank, this represents a pre-tax profit of DKK 316 million and an annualized 17.4% return on equity.

Management finds this performance highly satisfactory, and in this light revises the outlook for total core earnings for the year before impairment upwards by DKK 100 million.

PRESSURE ON NET INTEREST INCOME

Net interest income in Q1 amounted to DKK 452 million, which is 38 million, or 9%, higher than in the same period last year - but DKK 25 million, or 5%, lower than in Q4 2014.

The increase relative to the same period of 2014 is due in part to Spar Nord's takeover of activities from FIH Erhvervsbank in Q3 2014 and the Bank's redemption of hybrid core capital in May 2014 - both of these moves had not yet had an impact in Q1 2014.

The drop in net interest income from Q4 to Q1 is attributable to two fewer interest days in Q1 and the slimmer lending volume.

RECORD HIGH NET INCOME FROM FEES, CHARGES AND COMMISSIONS

Net income from fees, charges and commissions ended at DKK 312 million, equal to an advance of as much as DKK 106 million, or 52%, on Q1 2014.

The mortgage credit area represented the most significant source of the advance, with Q1 2015 seeing a remortgaging surge that has never been stronger. Totalkredit loans disbursed in Q1 reached as many as 6,400, a number that should be compared with the roughly 4,400 loans disbursed in Q4, at which time the activity level was already high.

At the same time, the savings and asset management areas maintained their growth momentum. The intake of customers and capital attracted by the Bank's offerings in this area thus continued the upward trend, and Spar Nord now manages DKK 12.2 billion in pooled pension funds and DKK 6.9 billion in available funds under mandate programmes.

POSITIVE MARKET-VALUE ADJUSTMENT OF DKK 359 MILLION AFTER THE SALE OF SHAREHOLDING IN NØRRESUNDBY BANK

Market-value adjustments and dividends amounted to DKK 359 million versus DKK 250 million in Q1 2014, and DKK 27 million in Q4 2014. The advance is attributable to a gain of DKK 226 million deriving from the sale of shares in Nørresundby Bank. However, it should be noted that in Q1 2014 the Bank recorded a positive adjustment of DKK 178 million on its shareholding in Nets.

The underlying development in market-value adjustments, especially those related to the Bank's bond and share portfolio, was thus also very satisfactory.

THE SALE OF THE NØRRESUNDBY BANK SHAREHOLDING CUTS OTHER INCOME

The "Other operating income" item ended at DKK 10 million versus DKK 16 million in the same period of 2014.

The profit on equity investments in associates and group enterprises came to DKK 7 million compared with DKK 23 million in the corresponding period last year. The decline should be viewed in light of the fact that Spar Nord has sold its shareholding in Nørresundby Bank.

COSTS AND EXPENSES IN LINE WITH FORECASTS

The Group's total costs amounted to DKK 484 million, which is 6% up on the same period of 2014, at a time when Spar Nord had not yet taken over activities and employees from FIH Erhvervsbank, but 21% down on Q4 2014, when substantial expenses were defrayed in connection with the switch to a new data-processing centre.

Salaries accounted for DKK 277 million of total costs and expenses. The realized payroll costs amounted to DKK 9 million, equal to 3% up on Q1 2014, primarily due to a rise in staff number after the takeover of activities from FIH Erhvervsbank and the revival of the Bank's leasing activities. At end-Q1 2015, the Group had 1,514 employees, which is 28 more than at the same time in 2014.

Other operating expenses came to DKK 191 million, which is DKK 21 million, or 12%, up on last year's level. DKK 8.5 million of the increase is attributable to non-recurring expenses connected with the divestment of Nørresundby Bank, and an additional DKK 6.8 million is due to an increase in IT expenses resulting from a heightened activity level.

GENERAL IMPROVEMENT IN CREDIT QUALITY – BUT AGRICULTURE IS STILL CHALLENGED

In Q1 2015 loan losses amounted to DKK 98 million – a level that should be seen against DKK 89 million in Q1 last year and DKK 205 million in Q4 2014, when the Bank recorded major losses on agricultural customers due to so-called “triggering events”. DKK 98 million in loan losses corresponds to an impairment ratio of 0.84% p.a. for the year to date.

DKK 14 million of the DKK 98 million profit impact is attributable to retail customers, representing an annualized impairment ratio of 0.3% on this customer category. DKK 8 million relates to business customers, excl. agricultural customers, corresponding to an annualized impairment ratio of 0.1%. Agricultural customers continued to face the challenges posed in recent quarters, with loan losses in this customer category thus coming to DKK 76 million, equal to 8.6% of the Group’s loans, advances and guarantees to the agricultural sector.

In light of developments in Q1, Management still expects the impairment level in 2015 to fall in all areas other than agriculture compared with 2014, but agricultural exposures will still need greater impairment.

DKK 25 MILLION CONTRIBUTED TO SECTOR-WIDE SOLUTIONS

The accounting item Contributions to sector-wide solutions comprises payments to the Guarantee Fund for Depositors and Investors, and from the second half of the year payments into the new winding-up fund.

In Q1 2015, a total of DKK 25 million was expensed, and Spar Nord expects total contributions to sector-wide solutions, incl. payments to the new winding-up fund as from the second half of the year, to hover around DKK 115 million for the full year.

DKK 533 MILLION IN PRE-TAX PROFITS

The pre-tax profits can accordingly be calculated at DKK 533 million compared with DKK 349 million in Q1 2014 and DKK -56 million in Q4 2014.

TAX

The Group’s effective tax rate was 13% in Q1 2015, and post-tax profits can thus be calculated at DKK 464 million, equal to an annualized return on equity of 25.6%.

The low tax rate stems from the fact that the market-value gain from the sale of shares in Nørresundby Bank is tax-exempt.

OTHER INFORMATION

BUSINESS VOLUME EXCEEDED DKK 200 BILLION

The Group's total business volume (deposits, loans, advances and guarantees, mortgage credits arranged and custodianship accounts) amounted to DKK 200.8 billion at end-Q1 2015 – DKK 5.1 billion up on the end-2014 volume.

Compared with end-2014, lending dropped by DKK 0.9 billion, DKK 0.7 billion of which is attributable to banking activities.

Since 1 January, the volume of mortgage-credit loans arranged has grown by DKK 0.8 billion, equal to 1%. In total, the volume of mortgage-credit loans arranged on behalf of retail customers (Totalkredit) amounted to DKK 54.7 billion, and to DKK 9.8 billion for business customers (DLR Kredit) at end-Q1 2015.

Deposits, banking activities rose by DKK 0.7 billion, or 2%, on end-2014, and deposits in pooled schemes grew by as much as DKK 1.3 billion, equal to 12%, during Q1.

Finally, since end-2014, customers' balances in custodianship accounts have grown by DKK 4.1 billion, or 12%.

Of total loans, advances and guarantees, which amount to DKK 44.0 billion, 43% is attributable to retail customers and 57% to business customers.

STRONG CAPITAL POSITION

Spar Nord's objective on the capital side is to have a Common Equity (Tier 1) ratio (CET1) of at least 12.0%, an overall solvency ratio of at least 15.0% and a spread between the individual solvency need ratio and the actual solvency ratio of at least 3 percentage points.

At end-Q1 2015, the Group's CET1 stood at 13.6% (end-2014: 13.0%).

The total capital ratio has been calculated at 15.6% (end-2014: 15.0%), which should be viewed in relation to Spar Nord having calculated the individual solvency need at 9.7%. Thus, the Bank has an excess capital coverage of 5.9 percentage points, equal to DKK 2.8 billion.

Based on a fully phased-in CRD IV, the current capital position corresponds to a Common Equity (Tier 1) ratio of 13.0%. Spar Nord's capital projections show that during the phase-in of CRD IV over the next few years, the Bank will constantly remain comfortably above the strategic capital targets.

As part of endeavours to optimize the Bank's capital structure, the Bank has decided to issue an estimated DKK 350 million in Tier 1 capital in Q2.

STRATEGIC LIQUIDITY OF DKK 16.9 BILLION

On the liquidity side, Spar Nord pursues the strategic goal of using long-term funding to finance bank and leasing lending at all times. Thus, the goal is for bank deposits, senior loans, issued bonds, subordinated loan capital and shareholders' equity to exceed the Bank's bank and leasing lending portfolio. Subordinated loans, senior loans and issued bonds due within 12 months are not included in the Bank's strategic liquidity.

At end-Q1 2015, Spar Nord's strategic liquidity amounted to DKK 16.9 billion, up DKK 1.9 billion on end-2014.

The improvement is mainly driven by continued growth in deposits, coupled with a decline in total lending.

As the table shows, at end-Q1 Spar Nord stands in a situation where its funding base consists of ordinary customer deposits and the capital base, and the Bank is independent of funding from capital markets.

SALE OF SHAREHOLDING IN NØRRESUNDBY BANK

After a process described in a number of company announcements in the period from October 2014 to February 2015, Spar Nord chose in February to accept Nordjyske Bank's tender offer for Nørresundby Bank and subsequently sold the shares in the merged Nordjyske Bank that were part of the payment.

Overall, the transaction and the payment of DKK 335 and one share in Nordjyske Bank for each Nørresundby Bank share held by Spar Nord meant that Spar Nord could recognize DKK 226 million as income in Q1 2015, as mentioned above. Overall, the sale meant a capital boost that would amount to about DKK 750 million given a fully phased-in CRD IV.

As concerns future earnings, the sale naturally means that Spar Nord will no longer recognize its pro-rata share of Nørresundby Bank's earnings as income.

RISKS

Reference is made to the 2014 Annual Report and to the Group's Risk Report for 2014, which describe the chief risks and elements of uncertainty that may affect the Group and the Parent Company.

OUTLOOK FOR 2015

The 2014 Annual Report projects core earnings before impairment for all of 2015 to end at around the same level as 2014 when adjusted for extraordinary issues in 2014 (the sale of Nets shares and change of data-processing centre). In connection with the sale of shares in Nørresundby Bank in March 2015, this projection was more precisely formulated as "around DKK 1.4 billion".

In light of the financial performance for Q1, the forecast is adjusted upwards to around DKK 1.5 billion.

MANAGEMENT'S STATEMENT ON THE INTERIM REPORT

The Board of Directors and the Executive Board have today reviewed and adopted the Interim Report of the Spar Nord Bank Group for the period from 1 January to 31 March 2015.

The Interim Financial Statements have not been audited or subjected to a review by the Group's auditor.

The Consolidated Interim Financial Statements are presented in accordance with IAS 34 "Interim Financial Reporting", as adopted by the EU. Moreover, the Interim Report is presented in accordance with additional Danish disclosure requirements regarding interim reports for listed financial institutions.

In our opinion, the Interim Financial Statements give a true and fair view of the Group's financial position at 31 March 2015 and of the results of the Group's operations and the Group's cash flows for the period from 1 January to 31 March 2015.

In addition, we also consider the Management's review to give a fair presentation of the development in the Group's activities and financial affairs as well as a description of the significant risks and elements of uncertainty that may affect the Group.

Note

1 ACCOUNTING POLICIES

The Interim Financial Statements of the Spar Nord Group covering the period from 1 January to 31 March 2015 have been prepared in accordance with IAS 34, "Interim Financial Reporting", as adopted by the EU, and additional Danish disclosure requirements for interim reports of listed financial institutions.

Apart from the changes set out below, the accounting policies have been applied consistently with those adopted in the 2014 Annual Report, which contains the complete wording of the accounting policies applied.

Changed accounting policies

Spar Nord has implemented the IFRS standards and IFRIC interpretations that entered into force in the EU as from 2015.

The implementation of the above-mentioned new standards and interpretations (IFRIC) has not materially affected recognition and measurement.

2 ACCOUNTING ESTIMATES

The measurement of certain assets and liabilities requires Management to estimate how future events will impact on the value of such assets and liabilities. Estimates of significance to the financial reporting are made in connection with determining the impairment of loans and advances, the fair value of unlisted financial instruments, provisions, etc. Estimates are based on assumptions that Management considers appropriate but which are uncertain by their nature.

The most significant estimates that Management makes in applying the Group's accounting policies and the most important uncertainty affecting estimates made when preparing the condensed Interim Financial Statements are unchanged from the estimates made in connection with the preparation of the Financial Statements at 31 December 2014 and the uncertainties prevailing at that time.

17 CONTINGENT ASSETS								
Since 31 December 2014, the Group has recognized deferred tax in full on a tax loss because the time horizon for utilizing the loss is assessed to be less than three years.								
At 31 March 2014, the Group had an unutilized tax loss of DKK 36.6 million, equal to a tax base of DKK 8.1 million, which was not recognized in the balance sheet because the time horizon for utilizing it was assessed to exceed three years.								
The unutilized tax loss has arisen as a result of the merger between Spar Nord Bank A/S and Sparbank A/S, but is a separate loss specifically relating to Aktieselskabet Skelagervej 15 (a previous, jointly taxed subsidiary of Sparbank A/S), which means that only Aktieselskabet Skelagervej 15 can utilize the tax loss.								
The subgroup joint taxation loss arose during the period of joint taxation between Aktieselskabet Skelagervej 15 and Sparbank A/S, during which period tax losses were realized.								
Other deferred tax assets not recognized amount to DKK 6.1 million (Q1 2014: DKK 2.0 million; 2014: DKK 6.8 million).

	Reference is made to note 10 regarding the Executive Board's notice of termination and the associated compensation.			
	In addition, the Spar Nord Group has contingent liabilities and other obligating agreements corresponding to the relative ownership interest in associates.			
	Spar Nord is taxed jointly with other Danish and foreign subsidiaries in the Spar Nord Group. As the management company, Spar Nord has unlimited, joint and several liability together with the other jointly taxed companies for the Danish corporate income tax payable. Due to the payment of tax on account, no tax was payable at end-Q1 2015, end-Q1 2014 and end-2014. The corporate income taxes receivable within the group of jointly taxed companies amounted to DKK 303.7 million at end-Q1 2015 (Q1 2014: DKK 30.0 million; 2014: DKK 92.6 million). Any adjustments to the taxable income subject to joint taxation might entail an increase in the Parent Company's liability.			
	Spar Nord has made provisions for a deferred tax liability in respect of the retaxation balance related to international joint taxation.			
	Participation in the statutory depositors' guarantee fund in Denmark requires the participating institutions to pay a fixed annual contribution of 2.5‰ of the guaranteed net deposits ("insurance-based model").			
	Payments to the Financial Institutions Department must continue until the amounts in the fund exceed 1% of the guaranteed net deposits. The Financial Institutions Department covers the direct losses associated with the winding-up of Danish financial institutions in accordance with Bank Packages 3 and 4, where such losses can be attributed to the guaranteed net deposits. Any losses in connection with the final winding-up will be covered by the guarantee fund via the Winding-up and Restructuring Department in which Spar Nord guarantees about 4.7% of any losses.			
	Uncertainty attaches to the amount of the contingent liabilities and the possible due dates.

FAIR-VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

FINANCIAL INSTRUMENTS RECOGNIZED AT FAIR VALUE

The fair value is the amount at which a financial asset may be traded between knowledgeable, willing parties in an arm's length transaction. If there is an active market, the market price is used by way of a listed price or price quotation. If a financial instrument is quoted in a market that is not active, the Bank bases its valuation on the most recent transaction price. Adjustment is made for subsequent changes in market conditions, for instance, by including transactions in similar financial instruments that are assumed to be motivated by normal business considerations. For a number of financial assets and liabilities, no effective market exists. In this case, the Group uses an estimated value, taking into account recent transactions in similar instruments and using discounted cash flows or generally accepted estimation and valuation techniques based on market conditions at the reporting date.

NOTES WITHOUT REFERENCE NUMBERS - THE GROUP

Bonds, assets linked to pooled schemes, derivative instruments and other non-derivative financial liabilities are valued according to the following principles:

- In case of listed prices, the fair value is fixed at the listed price or the price quoted by a recognized exchange or another external party.
- In case of pricing based on observable inputs, the fair value is calculated by means of a market-based yield curve plus/minus a credit spread, which is also calculated based on market prices.
- In case of pricing based on non-observable inputs, the calculation includes inputs based on the Bank's own valuations of individual elements, and also market data in some cases.

Shares are valued according to the following principles:

- In case of listed prices, the fair value is fixed at the price quoted by a recognized exchange or another external party.
- In case of pricing based on observable inputs, the fair value is calculated in accordance with the provisions of shareholders' agreements, etc. or inputs based on actual trades. Shares are generally priced on the basis of the prices recommended by Lokale Pengeinstitutter (the Association of Local Banks, Savings Banks and Cooperative Banks in Denmark) as observable inputs.
- In case of pricing based on non-observable inputs, the calculation includes shares valued according to generally accepted valuation principles, e.g., the discounting of future expected cash flows. Shares that are priced on the basis of the prices recommended by Lokale Pengeinstitutter (the Association of Local Banks, Savings Banks and Cooperative Banks in Denmark) are included as non-observable inputs. A reclassification has been made from level 2 to level 3 in the comparative figures at 31 March 2014.

The fair value has been determined reliably for all shares, and accordingly no shares have been recognized at cost.

A transfer is made between the categories in the valuation hierarchy if an instrument is classified differently on the reporting date as compared to the beginning of the financial year. Any reclassification is considered to have been made as of the reporting date. Apart from the reclassification of shares referred to above and the reclassification of Skandinavisk Data Center A/S to Shares, no significant transfers were made between the categories in 2014 and 2015. The reclassification of Skandinavisk Data Center A/S from Equity investments in associates to Shares at 31 December 2014 has resulted in Skandinavisk Data Center A/S being measured at fair value, equal to the discounted value of the selling price. The adjustment to fair value is included in market-value adjustments.

The fair values recommended by Lokale Pengeinstitutter (Lopi) (the Association of Local Banks, Savings Banks and Cooperative Banks in Denmark) are based on shareholders' agreements for the individual companies and share trades completed. The fair value is often based on the companies' book equity (net asset value), which is used as a basis for the transaction price between shareholders. Spar Nord makes an independent assessment of the prices recommended, and verifies their consistency with the transactions made and financial statements as presented.
