"The financial statements for the first quarter of 2023 show a highly satisfactory net profit of DKK 557 million and a return on equity of $19.5 \%$. The Bank's core income was lifted by strong growth in net interest income driven by rising policy and market rates and the implementation of interest rate changes on the Bank's deposit and loan products. Business volume growth and buoyant financial markets also contribute favourably to the overall financial performance. On the other hand, the Bank recorded lower net fee income in Q1 2023 due to a lower level of activity in house sales and mortgage credit facilitation as well as in securities trading and asset management.

Towards the end of Q1 2023, the collapse and subsequent rescue of two US banks and Switzerland-based Credit Suisse caused turmoil and uncertainty in the financial markets, causing equity prices to plunge. Apart from the sharp drop in equity prices for Danish banks, including Spar Nord, the Bank was unaffected in terms of earnings, and the Bank's capital and liquidity ratios remain solid.

Lastly, we should mention the unchanged strong credit quality among the Bank's customers, which helped ensure very limited losses and impairment charges in Q1 2023. Owing to continuing uncertainty about macroeconomic developments, the Bank has retained the level of its management estimates at the end of the quarter, making the Bank well prepared for the upcoming quarters," said Lasse Nyby, CEO.

Spar Nord achieved a profit after tax of DKK 557 million in Q1 2023, which corresponds to an annualised return on equity of $19.5 \%$. Overall, the performance is considered highly satisfactory.

Core income amounted to DKK 1,357 million, which is DKK 442 million, or as much as $48 \%$, higher than in the year-earlier period.

At DKK 770 million, net interest income was 77\% higher than last year, whereas net fee income fell $9 \%$ to DKK 397 million. Market value adjustments and dividends amounted to DKK 157 million, with mainly narrowing credit spreads triggering positive price adjustments on the Bank's bond holdings. Lastly, other income amounted to DKK 34 million.

Total costs and expenses amounted to DKK 629 million, against DKK 592 million in the same period of 2022. Of this amount, payroll costs amounted to DKK 372 million, corresponding to an increase of $4 \%$, and operating expenses amounted to DKK 257 million, which is $9 \%$ higher than in the same period of last year.

Loan impairment charges were an expense of DKK 1 million in Q1 2023, against an income of DKK 7 million in the year-earlier period. A strong and unchanged customer credit quality resulted in reduced impairment charges and management
estimates in stage 3 of DKK 12 million, whereas model-calculated impairment and management estimates in stages 1 and 2 were raised by DKK 13 million compared with year-end 2022.

## Increase of DKK 6.7 billion, or $\mathbf{2 \%}(y / y)$ in total business volume

At the end of Q1 2023, bank loans were DKK 6.3 billion and bank deposits DKK 7.1 billion higher than at the end of Q1 2022. Furthermore, financial market developments prompted an increase in customers' custodianship accounts of DKK 4.4 billion.

On the other hand, guarantees fell DKK 6.6 billion and mortgage credit facilitation fell DKK 3.7 billion, while deposits in pooled schemes were reduced by DKK 1.2 billion relative to the year-earlier period.

## Outlook for 2023

As announced in company announcement no. 23 of 14 April 2023, Spar Nord upgraded its full-year financial guidance.
The guidance for core earnings before impairment was upgraded to DKK 2.5-2.9 billion, while expectations for profit after tax was upgraded to DKK 1.8-2.1 billion.

## Management commentary on Q1 2023

Spar Nord achieved a profit after tax of DKK 557 million in Q1 2023, which corresponds to an annualised return on equity of $19.5 \%$. Overall, the first quarter performance is considered highly satisfactory.

## Income

Core income amounted to DKK 1,357 million, which is DKK 442 million, or as much as $48 \%$, higher than in the year-earlier period.

## Developments in net interest income

Net interest income was DKK 770 million, against DKK 436 million in the year-earlier period.

Developments in net interest income were driven by sharply rising policy and market rates and growth in both deposits and lending.

The increase in interest income from lending was positively affected by a substantial increase in the average lending rate and an increase in lending. On the other hand, growth in deposits and the abolition of negative deposit rates also prompted higher interest expenses compared with the same period of last year. Overall, developments in policy and market rates and deposits and lending resulted in an increase in net interest income from deposits and loans of DKK 161 million compared with Q1 2022.

Net interest income relating to the placement of the Bank's excess liquidity in Q1 2023 was also positively affected by developments in policy and market rates. Net interest income from financial items and other net interest income in Q1 2023 were thus DKK 236 million higher overall than in the same period of last year.

Lastly, net interest income in Q1 2023 relative to the year-earlier period was adversely affected by an increase in interest expenses for capital market issues totalling DKK 64 million, due to an increase in market rates and a higher volume.

Net fee income was DKK 397 million in Q1 2023, against DKK 438 million in the same period of 2022. Net fee income thus accounted for 34\% of total net interest and fee income (Q1 2022: 50\%). The large drop in the share of net interest and fee income was due especially to the sharp increase in net interest income of $77 \%$.

Net interests income and net fee income
(DKKm)
Net fee income Net interests income

Overall, net fee income in Q1 2023 was DKK 41 million lower than in the same period of last year, or a decrease of $9 \%$.

First-quarter developments in net fee income were adversely affected by an overall lower level of activity in areas such as house sales, loan remortgaging and securities trading compared with the same period of last year. At the same time, last year's fall in assets under management and mortgage credit facilitation resulted in a slightly lower level of vol-ume-based fee income in Q1 2023.

On the other hand, net fee income in Q1 2023 was positively affected by persistently strong activity in payment services and cards, insurance and pension, and the Bank's fee structure adjustment in mid-2022 contributed favourably to net fee income compared with the year-earlier period.

Market value adjustments and dividends amounted to DKK 157 million, against DKK 7 million in the same period of 2022. Market value adjustments in the

Trading Division were DKK 87 million, while market value adjustments deriving from customer activity and business volume totalled DKK 70 million.

Market value adjustments and dividends (DKKm)

Overall, financial market developments were more positive in Q1 2023 with credit spreads narrowing in the bond market and receding fears of a recession in the equity markets. The developments prompted positive market value adjustments in the Trading Division with value adjustments of the Bank's bond portfolio contributing DKK 78 million, while market value adjustments on the Bank's equity portfolio totalled DKK 9 million.

The Bank's bond portfolio is recognised at fair value irrespective of whether it is placed in the trading book or in the banking book.

Market value adjustments and dividends on the portfolio of strategic shareholdings in the financial sector were DKK 46 million, which is DKK 19 million lower than in the same period of 2022. The lower income in Q1 2023 was mainly due to lower market value adjustments regarding Spar Nord's shareholdings in Bl Holding (Banklnvest).

Finally, market value adjustments from currency trading and exchange rate gains were unchanged at DKK 24 million driven by satisfactory customer activity in Q1 2023.

Other income amounted to DKK 34 million, against DKK 35 million in the same period of 2022 . Of total other income in Q1 2023, investments in associates amounted to DKK 21 million, which was mainly attributable to Spar Nord's holding of shares in Danske Andelskassers Bank (DAB).

At the end of Q1 2023, Spar Nord's shareholding in DAB amounted to 38.9\%.

## Other income

(DKKm)

## Costs and expenses

The Group's total costs and expenses amounted to DKK 629 million, against DKK 592 million in the same period of 2022, or an increase of $6 \%$.

Wages and salaries accounted for DKK 372 million of total costs and expenses. Realised payroll costs were DKK 15 million, or 4\%, higher than in Q1 2022. The average number of employees in Q1 2023 was 28 higher than in the year-earlier period.

At 31 March 2023, Spar Nord employed 1,648 people (FTE), which was 26 more than at the same time last year. Of the total increase, about half was attributed to the opening of new local banks during the past year.

Total cost and expenses
(DKKm)

Operating expenses came to DKK 257 million, which is DKK 21 million higher than Q1 2022.

The increase in operating expenses was mainly ascribable to higher IT costs relating to the Bank's data processing centre, BEC, and other IT costs.

Relative to the same period of last year, the Bank recorded an increase in cost items regarding travel, staff and marketing, while costs of fees were lower, among other things due to lower costs relating to the Bank's IRB project.

The realised core income and costs corresponds to a cost/income ratio of 46, which is well below the strategic goal of a cost/income ratio below 55 (Q1 2022: 65).

## Loan impairment

Loan impairment charges were an expense of DKK 1 million in Q1 2023, against a small income of DKK 7 million in the year-earlier period.

Impairments
(DKKm)

The DKK 1 million impact on profits breaks down into DKK 13 million attributable to business customers and DKK - 12 million to retail customers.

The modest profit impact in Q1 2023 underlined an unchanged strong credit quality among the Bank's retail and business customers. At the same time, macroeconomic variables and confidence indicators were relatively neutral compared with the end of 2022, which resulted in limited movements in model-calculated impairment charges and management estimates.

In Q1, a continued decline in the number of exposures flagged for OEI and improved credit quality resulted in lower impairment charges and stage 3 management estimates of DKK 12 million compared with the end of 2022.

On the other hand, an update of input variables resulted in an increase in model-calculated impairment charges and management estimates in stages 1 and 2 of DKK 13 million compared with end-2022.

At 31 March 2023, total management estimates amounted to DKK 588 million, which was an increase of DKK 14 billion relative to 31 December 2022. At the end of Q1 2023, the model-supported management estimate regarding inflation, weak growth and property prices amounted to DKK 448 million, while the management estimates regarding model uncertainty, etc. and land prices in the
agricultural sector amounted to DKK 102 million and DKK 38 million, respectively.

At 31 March 2023, the total management estimates of DKK 588 million broke down into DKK 275 million on business customers and DKK 313 million on retail customers.

## Profit/loss

The profit before tax was DKK 727 million, against DKK 329 million in Q1 2022. The Group's effective tax rate was $23 \%$, bringing net profit to DKK 557 million.

## Business volume

The Group's total business volume (deposits, loans, advances and guarantees, facilitated mortgage loans, customers' custodianship accounts and life annuities) amounted to DKK 351.1 billion at 31 March 2023, which was DKK 6.7 billion higher than at 31 March 2022 and DKK 2.4 billion higher than at end2022.

Compared with the year-earlier period, bank and leasing loans at 31 March 2023 rose DKK 6.3 billion, or $13 \%$, to DKK 56.1 billion. Lending to business customers increased by DKK 3.0 billion, while lending to retail customers increased by DKK 2.4 billion. Finally, leasing loans grew by DKK 1.3 billion, while loans to public-sector customers fell by DKK 0.3 billion. Compared with end-2022, bank and leasing loans grew by DKK 0.8 billion.

Relative to Q1 2022, the volume of facilitated mortgage loans fell DKK 3.7 billion, or 3\%, to DKK 109.9 billion. In total, the volume of facilitated mortgage loans amounted to DKK 99.0 billion from Totalkredit and DKK 10.9 billion from DLR Kredit. Compared with end-2022, facilitated mortgage loans fell by DKK 1.2 billion. Since Q1 2022, the volume of facilitated mortgage loans has been adversely affected by customers' capital gains from remortgaging to a higher coupon rate and an increase in the facilitation of mortgage loans - a trend which also characterised developments in Q1 2023.

Total credits arranged
(DKKbn)

At 31 March 2023, deposits, banking activities had increased by DKK 7.1 billion, or 11\%, to DKK 70.3 billion compared with 31 March 2022. Of the increase in deposits, business customers accounted for DKK 4.1 billion and retail customers for DKK 3.0 billion. Compared with end-2022, bank loans fell by DKK 1.9 billion.

At the end of Q1 2023, financial market developments resulted in an increase in customers' custodian accounts of DKK 4.4 billion to DKK 76.0 billion relative to Q1 2022. Lastly, deposits in pooled schemes fell by DKK 1.2 billion to DKK 22.9 billion and guarantees by DKK 6.6 billion to DKK 11.6 billion. The decrease in guarantees was driven by the lower level of activity in house sales and loan remortgaging and a reduction in loss guarantees towards Totalkredit.

## Total deposits

(DKKbn)

As a result of developments in deposit and lending volumes, the loan-to-deposit ratio at 31 March 2023 stood at 80.

## Capital position

On the capital side, Spar Nord pursues the goal of having a common equity tier 1 (CET1) ratio of $13.5 \%$ and an own funds ratio of 17.5\%.

### 31.03.23 31.03.22 $\quad 31.03 .21 \quad 31.03 .20 \quad 31.03 .19$

| Common equity <br> tier 1 capital ratio | 15.4 | 15.6 | 15.0 | 15.3 | 14.2 |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Tier 1 capital ratio | 17.3 | 17.6 | 17.3 | 16.7 | 15.8 |
| Own funds ratio | 19.9 | 20.0 | 19.5 | 19.0 | 18.2 |

At 31 March 2023, the common equity tier 1 (CET1) ratio was $15.4 \%$, while the own funds ratio was $19.9 \%$. The latter should be viewed relative to the individual solvency need calculated by Spar Nord at 9.7\% plus the 6.0\% combined buffer requirement, bringing the total capital requirement to $15.7 \%$. Thus, at the end of the quarter, Spar Nord had an excess capital coverage of 4.0 percentage points, equal to DKK 2.5 billion.

Compared with Q4 2022, the Bank's common equity tier 1 capital ratio and own funds ratio decreased by 1.0 percentage point.

At 31 March 2023, the Bank's own funds had decreased by DKK 0.5 million relative to Q4 2022. Own funds were adversely affected by a DKK 300 million deduction for the share buyback programme and an increase in the deduction relating to Spar Nord's holding of shares in DAB due to participation in DAB's capital increase.

At 31 March 2023, the total risk exposure amount was DKK 0.8 billion higher than in Q4 2022 The credit risk fell by DKK 0.2 billion, while market risk and operational risk increased by DKK 0.7 billion and DKK 0.3 billion, respectively.

The reduced risk exposure amount for credit risk was attributable to a substantial fall in guarantees to retail customers, while growth in loans and advances for both retail (mainly mortgage loans) and business customers had the opposite effect. The higher risk exposure amount for market risk was mainly driven by a higher gross interest rate risk at the end of the quarter.

The Bank has opted not to recognise the positive result in own funds for Q1 2023. If the results for the quarter less provision for expected dividends had been recognised, the CET 1 capital ratio would have been $15.8 \%$ and the total capital ratio would have been 20.2\%.

When the MREL requirement has been fully phased in at the beginning of 2024, Spar Nord must comply with the same requirements regarding eligible liabilities (MREL requirements) as other SIFIs. Fully phased in, the requirement means that Spar Nord must have total capital of about $29 \%$ of the total risk exposure amount (REA).

The Bank expects that the MREL requirement, when fully phased-in, will lead to a total need for issuing MREL capital of around DKK 8 billion. In Q1 2023, Spar Nord issued MREL capital totalling DKK 0.2 billion (EUR 25 million), and at 31 March the Bank had issued total MREL capital of DKK 6.3 billion.

With due consideration to ensuring an even maturity structure and the current opportunities and prices of issues, Spar Nord regularly considers the need for and timing of issuing additional MREL capital. In the remaining part of 2023, Spar Nord
expects to issue MREL capital for up to DKK 2 billion to prepare for a fully phased-in MREL requirement on 1 January 2024.

## Liquidity and funding

At 31 March 2023, the Liquidity Coverage Ratio and the Net Stable Funding Ratio were well above both the statutory requirements and the Bank's own targets.

Spar Nord's LCR ratio at 31 March 2023 was thus 230, while the NSFR ratio was 126.

At the end of Q1 2023, Spar Nord's total funding amounted to DKK 96.3 billion. At the end of the
quarter, money market funding had increased due to an increase in business volume in the repo market, while deposits excluding pooled schemes of DKK 70.6 billion remained the Bank's principal source of funding.

At 31 March 2023, 66\% of the Bank's total deposits were covered by the Guarantee Fund, which is the Danish guarantee scheme to cover depositors. At the same time, the sum of the 20 largest deposits accounted for $5 \%$ of the Bank's total deposits.

## Rating

Spar Nord has an external rating with rating agency Moody's. Spar Nord has an Adjusted Baseline credit assessment of baa1 and a Banking deposit rating of A1 with a stable outlook. Spar Nord's Senior Non-Preferred issues have been assigned a rating of A3 by Moody's.

## The Supervisory Diamond

The Supervisory Authority Diamond Test Model lists a number of quantitative reference points, stipulating what can be considered a financial institution with an increased risk.

Failure to comply with the reference points in the Supervisory Diamond will trigger a reaction from the Danish FSA.

At 31 March 2023, Spar Nord was still comfortably within all the reference points, achieving the values shown below:

## Outlook for 2023

In its 2022 Annual Report, Spar Nord guided for FY 2023 core earnings before impairment of DKK 2.32.7 billion and profit after tax in the DKK $1.5-1.8$ billion range.

As announced in company announcement no. 23 of 14 April 2023, Spar Nord upgraded its full-year financial guidance.

On the basis of higher net interest income from rising policy and market rates in Q1 2023 and expectations for the remainder of the year and in spite of a slightly lower level of activity than anticipated, Spar Nord upgraded its full-year guidance for core earnings before impairment to DKK 2.5-2.9 billion.

Furthermore, as a result of persistently strong credit quality for the bank's retail and business customers impairment charges for the full year were still expected to be higher than in 2022, but lower than forecast at the beginning of the year.

Guidance for profit after tax was upgraded to DKK 1.8-2.1 billion.

On the basis of performance in Q1 2023, Spar Nord maintains its guidance for core earnings before impairment and net profit.

## Alternative performance measures

Spar Nord's Management believes that the alternative performance measures (APMs) used in the Management's review provide valuable information to readers of the financial statements. The APMs provide a more consistent basis for comparing the results of financial periods and for assessing the performance of the Group. They are also an important aspect of the way in which Spar Nord's Management defines operating targets and monitors performance.

Throughout the Management's review, performance is assessed on the basis of the financial highlights and segment reporting, which represent the financial information regularly provided to Management. The differences between the financial highlights and the IFRS financial statements relate only to certain changes in the presentation. As there are no adjusting items, net profit is the same in the financial highlights and in the IFRS income
statement A reconciliation of the correlation between core income in the management commentary and the IFRS financial statements is shown in note 2.1 Business segments.

Spar Nord uses core earnings as a performance measure. There is no difference between "Core earnings before impairment" in the core earnings format and "Profit/loss before loan impairments" in the IFRS financial statements.

Defined below are the additional key indicators shown on page 5 of the management commentary and in the other sections of the management commentary.

## Management's statement on the interim report

The Board of Directors and the Executive Board have today discussed and adopted the Interim Financial Statements of Spar Nord Bank A/S for the period from 1 January to 31 March 2023.

The Interim Financial Statements are presented in accordance with IAS 34 "Interim Financial Reporting", as adopted by the EU.

Moreover, the Interim Financial Statements are presented in accordance with additional Danish disclosure requirements regarding interim financial statements of listed financial institutions.

The interim financial statements are unaudited and have not been reviewed.

In our opinion, the Interim Financial Statements give a true and fair view of the Group's financial position at 31 March 2023 and of the results of the Group's operations and cash flows for the period from 1 January to 31 March 2023.

In addition, we consider the Management's review to give a fair presentation of the development in the Group's activities and financial affairs as well as a description of the significant risks and elements of uncertainty that may affect the Group.

## Section 1

## Basis of preparation

## § 1.1 Accounting policies

### 1.1.1 Basis of preparation of the interim report

The interim report is presented in accordance with IAS 34, "Interim Financial Reporting", as adopted by the EU, and additional Danish disclosure requirements for interim reports. The application of IAS 34 means that the presentation is limited relative to the presentation of an annual report and that the recognition and measurement principles of the International Financial Reporting Standards (IFRS) have been applied.

Other than as set out below, the accounting policies are unchanged from those applied in Annual Report 2022.

Annual Report 2022 contains the full description of the accounting policies.

Figures in the interim report are presented in millions of Danish kroner, unless otherwise stated. Consequently, rounding differences may occur because grand totals are rounded and the underlying decimal places are not shown to the reader.

### 1.1.2 Accounting policy changes

Effective from 1 January 2023, Spar Nord has implemented the following new or amended standards and interpretations:

- Amendments to IAS 1 Disclosure of Accounting policies amendments to IAS 12 Deferred tax and amendments to IAS 8 Accounting estimates.

The implementation of these standards and interpretations has not materially affected recognition and measurement.

### 1.2 Significant accounting estimates and judgments

() Measuring certain assets and liabilities requires Management to make management estimates of how future events will affect the value of such assets and liabilities. Estimates considered material in presenting the financial statements are, among other things, those made when determining loan impairment, the fair values of unlisted financial instruments as well as provisions. The applied estimates are based on assumptions deemed reasonable by Management but which are inherently uncertain.

In the presentation of the condensed Interim Financial Statements, the critical judgments made by Management in the application of the Group's accounting policies, and the considerable uncertainty related thereto, are identical to those applying to the presentation of the Financial Statements at 31 December 2022.

Management estimates of impaired loans are described in more detail in the "Loan impairment" section of the Financial review.

Spar Nord has no financial assets or financial liabilities at fair value through other comprehensive income.

## Day 1 gains (customer margin)

When valuing unlisted derivative instruments, the initial customer margin, etc. is amortised over the remaining term to maturity. At 31.03.2023, the customer margin, etc. not yet amortised amounted to DKK 43 million (31.12.2022: DKK 44 million).

All Spar Nord bonds are measured at fair value through profit or loss.

In Day 1 gains, no amount was offset from CVA at 31.03.2023, which is the credit value component of derivatives.

Reference is made to note 2.7 regarding the Executive Board's notice of termination and the associated compensation.

Spar Nord is taxed jointly with its Danish subsidiary in the Spar Nord Group. As management company, Spar Nord has unlimited, joint and several liability together with the subsidiary for the Danish corporate income tax payable. Due to the payment of tax on account, no tax was payable at 31.03.2023 and 31.12.2022. The corporate income tax receivable within the tax pool amounted to DKK 24 million at 31.03.2023 (31.12.2022: DKK 65 million). Any adjustments to the taxable income subject to joint taxation might entail an increase in the Parent Company's liability.

Spar Nord has made provisions for a deferred tax liability in respect of recaptured losses related to international joint taxation.

The Bank participates in the national restructuring and resolution scheme, with separate contributions being paid to the Guarantee Fund and the Resolution Fund. For both funds, separate target levels have been set, based on the sector's total deposits that are covered by the guarantee limit of EUR 100,000 (section 9(1) of the Act on a Depositor and Investor Guarantee Scheme).

The Guarantee Fund covers customers' deposits and securities pursuant to the Act on a Depositor and Investor Guarantee Scheme.

The Bank's costs for the Guarantee Fund are calculated based on the Bank's pro-rata share. The amount of the contribution will be adjusted by an individual risk factor.

The Resolution Fund is to be used pursuant to the Act on Restructuring and Resolution of Certain Financial Enterprises for the purpose of covering the associated costs.

The Bank's costs for the Resolution Fund are calculated based on the Bank's pro-rata share of the sector's total equity and liabilities less own funds and covered deposits. This contribution will also be adjusted by an individually determined risk factor. The Bank's costs for the Resolution Fund for 2023 have been included as a pro-rata share of the annual contributions. The Bank's contribution to the Resolution Fund at 31.03.2023 amounted to DKK 4 million (31.03.2022: DKK 4 million).

The amount of the contingent liabilities and the possible due dates are subject to uncertainty, for which reason this information has not been disclosed.
